Asst. Manager of Foreign Department

Dear Sir:

GOVERNMENT OF SURINAME

We refer to your letter of March 26, 1947 requesting a delivery date for the furnishing of 500,000 Scrip Certificates of 1 - Gulden, to be the same in all respects as last supplied on F 11260.

We can begin a delivery on July 15, 1947 and complete the order on August 5, 1947, if received within the next few weeks.

Yours truly,

A. W. Wittnebel

Manager

C

April 3, 1947

By hand

Mr. C. Haver Droeze
Vice-Consul of The Netherlands
10 Rockefeller Plaza
New York 20, N.Y.

Dear Sir:- Re: Temporary Scrip Certificates for Surinam

Pursuant to your recent verbal request we beg to advise that for furnishing 500,000 Scrip Certificates of 1 Gulden, same to be a straight reprint of those we were privileged to prepare in 1942, changing only the series letters, our price is $6,250.00 U.S. Currency, F.O.B. New York. The same terms of payment as before would be agreeable, namely - an irrevocable letter of credit with a New York bank to provide payment against shipping documents or against a certificate of manufacture in the event shipping facilities are not available on completion of the work.

As nearly as we are able to estimate at this time, a partial quantity could be completed about mid-July, the balance to follow soon thereafter. This is, of course, contingent upon a prompt placing of the order and subject to any causes of delay or cessations beyond our control. Every effort to improve upon it would be made once the work is in hand and commitments for materials can be obtained.

As with all orders we accept, it is understood that all engravings from which this work will be printed must remain in our custody, to be printed from only by us or cancelled in our premises upon receipt of appropriate authorization.

We beg to take this opportunity to remind the Government of Surinam through your good offices that this issue was originally designed as an emergency and temporary one. It is therefore our recommendation that these temporary certificates be replaced at an early opportunity by a permanent issue incorporating all up to date features of security.

We hope we may have the honor of serving the Government of Surinam again on this occasion.

Yours very truly,

AMERICAN BANK NOTE COMPANY

May 3, 1947.

Gentlemen:

With reference to your letter of April 3rd, 1947 I beg to inform you that I have received telegraphic authorization from the Governor of Surinam to place with you an order for 500.000 Scrip Certificates of One Gulden. These will be a straight reprint of those prepared by you in 1942, with the exceptions that the certificates of the new issue will be divided in 10 series, each of 50.000 certificates carrying the numbers 1 till 50.000 and the letters (double capitals) RR, SS, AA, CC, EE, FF, HH, KK, LL, MM, and will carry the date " 1 Juli 1947" and two signatures in facsimile, specimens of which I enclose herewith.

./.

I shall request the Governor of Surinam to open a letter of credit with a New York Bank providing the conditions mentioned in your letter.

I sincerely hope that you will be able to start the preliminary work in order to secure delivery on the earliest possible date.

Yours faithfully,

G.R.G. van Swinderen.
Acting Consul General.

Gentlemen:

We have the honor of acknowledging receipt of your favor of the 3rd, No.5577, advising us of the authorization by the Governor of Suriname for the preparation of 500,000 Scrip Certificates of One Gulden.

This valued order is immediately being entered, due attention being given to the changes in the date, signatures and series letters requested, but otherwise it will be in accordance with our proposal of April 3rd.

Every effort will be made to expedite completion and we will inform you of the expected ate as soon as it can be ascertained with some degree of exactness.

We greatly value this further expression of confidence in us.

Very truly yours,

S i r : -

We wish to express our appreciation for the order, placed with us through the Consulate General of the Netherlands in this city, for 500,000 Scrip Certificates of 1 Gulden, which order is already in the course of execution and having our best attention to the end of effecting an early delivery.

We suggested to the Consulate General the opening of a letter of credit to cover the value of the order but we are now in receipt of your remittance, through De Surinaamsche Bank and The Chase National Bank of this city in the full F.O.B. sum of the order, namely - $6,250.00 U.S. Currency, for which remittance we thank you, We assume it will be agreeable if we render our bill for the expenses of shipping and insuring at the time of dispatching the certificates.

Reiterating our thanks for this additional valued order, we remain, Sir,

Yours very truly,

$3470.00 CERTIFICATE OF INSURANCE No. F 678808

FEDERAL INSURANCE COMPANY

INCORPORATED UNDER THE LAWS OF NEW JERSEY

CHUBB & SON, Managers

No. 90 JOHN STREET, NEW YORK 7, N. Y.

C.P.R. AUG -1 1947

NEW YORK, N. Y., July 25th, 1947

This is to Certify, *That this Company has insured under Policy No.* ***FO-15090,***

for ***AMERICAN BANK NOTE COMPANY,***

the sum of Three thousand four hundred seventy and 00/100- - - - - - - - - - *Dollars*

on Five (5) cases printed matter.

Under Deck, Valued at Sum Insured

per S.S. HAWSER EYE *and/or other Steamer or Steamers,*

at and from New York, N. Y., to Paramaribo Surinam

direct or otherwise

It is understood and agreed that in case of loss the same is payable to the order of

AMERICAN BANK NOTE COMPANY,

on surrender of this certificate, which conveys the right of collecting any such loss as fully as if the property were covered by a special policy direct to the holder hereof, and free from any liability for unpaid premiums. This certificate is subject to all the terms of the open policy, provided, however, that the rights of a bona fide holder of this certificate for value shall not be prejudiced by any terms of the open policy which are in conflict with the terms of this certificate.

The following Warranties shall be paramount and shall not be modified or superseded by any other provision included herein or stamped or endorsed hereon unless such other provision refers specifically to the risks excluded by these warranties and expressly assumes the said risks.

(A) Notwithstanding anything herein contained to the contrary, this insurance is warranted free from capture, seizure, arrest, restraint, detainment, confiscation, preemption, requisition or nationalization, and the consequences thereof or any attempt thereat, whether in time of peace or war and whether lawful or otherwise; also warranted free from all consequences of hostilities or warlike operations (whether there be a declaration of war or not); but this warranty shall not exclude collision, contact with any fixed or floating object (other than a mine or torpedo), stranding, heavy weather or fire unless caused directly (and independently of the nature of the voyage or service which the vessel concerned or, in the case of a collision, any other vessel involved therein, is performing) by a hostile act by or against a belligerent power; and for the purpose of this warranty "power" includes any authority maintaining naval, military or air forces in association with a power.

Further warranted free from the consequences of civil war, revolution, rebellion, insurrection, or civil strife arising therefrom, or piracy.

(B) Warranted free of loss or damage caused by or resulting from strikes, lockouts, labor disturbances, riots, civil commotions or the acts of any person or persons taking part in any such occurrence or disorder.

In case of loss or damage please follow instructions on the reverse side of this certificate.

It is hereby agreed that any loss or claim under this Certificate shall be paid at the office of the Company in New York, or at the offices of the Agents of the Company, Exchange Buildings, Liverpool, or at the Agency of the Company at port or place of destination, or, if the Company is not represented at port or place of destination, at the nearest Agency amongst those specified in the list on back hereof.

Claims to be adjusted according to the usages of Lloyds, but subject to the conditions of the Policy and Contract of Insurance.

NOTICE—To conform with the Revenue Laws of Great Britain, in order to collect a claim under this Certificate, it must be stamped within ten days after its receipt in the United Kingdom.

SPECIAL CONDITIONS

Under Deck shipments are insured:

Against all risks of loss or damage to the merchandise insured howsoever occurring, irrespective of percentage excepting risks excluded by the F. C. & S. (Free of Capture & Seizure) and Strikes, Riots and Civil Commotion Warranties appearing elsewhere hereon.

While on deck of ocean vessel:—

"Free of Particular Average unless caused by the vessel and/or interest insured being stranded, sunk, burnt, on fire or in collision with another ship or vessel or with ice or with any substance other than water, but liable for jettison and/or washing overboard, irrespective of percentage."

Marks and Numbers

GOVERNMENT OF
SURI NAME

Original Policy and all other documents required, will be forwarded on application to this office.

Where the words "including M. E. C." are typed in the space below at the time the certificate is issued, this insurance is subject to the American Institute Marine Extension Clauses (April, 1943).

Including M.E.C.

Where the words "including Strike Risks" are typed in the space below at the time the certificate is issued, this insurance is subject to the American Institute S. R. & C. C. Clauses, form 5-A (Feb. 1941).

Including Strike Risks

Where the words "including War Risk" are typed in the space below at the time the certificate is issued, this insurance is subject to the American Institute War Risk Clauses, form 3-M (Feb., 1946).

Including War Risk

ON DECK—Merchandise and/or goods shipped on deck which must be so specified in this certificate are insured.—Free of particular average unless caused by the vessel being stranded, sunk, burnt, on fire, or in collision, but including jettison and/or washing overboard, irrespective of percentage.

1. This insurance attaches from the time the goods leave the Warehouse and/or Store at the place named in the certificate or special policy for the commencement of the transit and continues during the ordinary course of transit, including customary transhipment if any, until the goods are discharged overside from the overseas vessel at the final port. Thereafter the insurance continues whilst the goods are in transit and/or awaiting transit until delivered to final warehouse at the destination named in the certificate or special policy or until the expiry of 15 days (or 30 days if the destination to which the goods are insured is outside the limits of the port) whichever shall first occur. The time limits referred to above to be reckoned from midnight of the day on which the discharge overside of the goods hereby insured from the overseas vessel is completed. Held covered at a premium to be arranged in the event of transhipment, if any, other than as above and/or in the event of delay in excess of the above time limits arising from circumstances beyond the control of the Assured.

2. Held covered while on craft to and from the vessel. Each lighter or craft to be considered as if separately insured. The Assured not to be prejudiced by any agreement exempting lightermen from liability.

3. This insurance shall not be vitiated by any unintentional error in description of vessel, voyage or interest, or by deviation, over-carriage, change of voyage, transhipment or any other interruption of the ordinary course of transit from causes beyond the control of the Assured. It is agreed, however, that any such error, deviation or other occurrence mentioned above shall be reported to this Company as soon as known to the Assured, and additional premium paid if required.

4. Notwithstanding any average warranty contained herein, these assurers agree to pay any landing, warehousing, forwarding, or other expenses and/or particular charges for which this policy in the absence of such warranty would be liable. Also to pay the insured value of any package, piece, or unit totally lost in loading, transhipping or discharge.

5. In case of loss or injury to any part of a machine consisting, when complete for sale or use, of several parts, these assurers if liable therefor under the terms of this policy, shall only be liable for the insured value of the part lost or damaged.

6. In case of damage affecting labels, capsules or wrappers, these assurers, if liable therefor under the terms of this policy, shall be liable only for an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods.

7. Including General Average and Salvage Charges according to United States laws and usage and/or as per Foreign Statement and/or as per York-Antwerp Rules (as prescribed in whole or in part) if in accordance with the Contract of Affreightment.

8. Including the risk of explosion, howsoever or wheresoever occurring during the currency of this insurance, unless excluded by the F. C. & S. Clause or the S. R. & C. C. Clause set forth herein.

9. Where this policy by its terms covers while on docks, wharves, or elsewhere on shore and/or during land transportation, such coverage shall include the risks of collision, derailment, or overturning of the conveyance, fire, cyclones, hurricanes, earthquakes, floods (meaning the rising of navigable waters), and/or collapse or subsidence of docks, and to pay loss or damage caused thereby, even though the insurance be otherwise F.P.A.

10. The assured are not to be prejudiced by the presence of the negligence clause and/or latent defect clause in the Bills of Lading and/or Charter Party. The seaworthiness of the vessel as between the assured and the Underwriters is hereby admitted and the wrongful act or misconduct of the shipowner or his servants causing a loss is not to defeat the recovery by an innocent assured if the loss in the absence of such wrongful act or misconduct would have been a loss recoverable on the policy. With leave to sail with or without pilots, and to tow and assist vessels or craft in all situations, and to be towed.

11. Warranted free of claim for loss of market or for loss, damage or deterioration arising from delay, whether such delay be caused by a peril insured against or otherwise, unless the risk of delay is expressly assumed in writing hereon.

12. Where goods are shipped under a Bill of Lading containing the so-called "Both to Blame Collision" Clause these assurers agree, as to all losses covered by this insurance, to indemnify the assured for this policy's proportion of any amount (not exceeding the amount insured) which the assured may be legally bound to pay to the shipowners under such clause. In the event that such liability is asserted the assured agrees to notify the assurers who shall have the right at their own cost and expense, to defend the assured against such claim.

13. Warranted that this insurance shall not inure, directly or indirectly, to the benefits of any carrier or bailee.

Not Valid unless countersigned by J. M. FLYNN or B. BERTOSEN.

Countersigned, B. Bertosen

INSTRUCTIONS TO CLAIMANTS

Any loss or damage which may happen to the property insured under this certificate shall be reported as soon as the goods are landed or the loss is known or expected, to the agent of the Insurers located at the port of discharge or disaster (see list below). If there be no such agent at or near such port, such notice shall be given to an accredited representative of the Board of Underwriters of New York. *In case of loss or damage, produce this certificate for said agent's or representative's inspection and request him to hold a survey and issue a certificate stating the cause and extent of the loss or damage.* If there be no agent of the Insurers at the port of discharge or disaster, nor a representative of the Board of Underwriters of New York, certificate of survey should be obtained from Lloyds agent at destination.

After the foregoing formalities have been complied with, the complete documents (survey report, policy, invoice, bill of lading, letter to carrier and latter's reply) should be sent to the Insurer's agents (named below) to enable them to decide as to the liability of the Insurers.

IMPORTANT NOTICE

When cargo is received from the carrier in a damaged condition, or in case of loss by theft, pilferage, non-delivery or negligence (if covered by this insurance) in order to save for yourselves or your underwritors, any rights which you may have against the carrier, it is necessary for you to file notice of claim in writing against the carrier before taking delivery of the goods. Claim in writing must be filed with the carrier as soon as the actual loss or damage is known and a copy thereof and a reply thereto must accompany any claim presented under this insurance certificate, in addition to the usual certificate of loss issued by the Underwriters Agent. Filing claim against the carrier will not affect your rights under your insurance certificate.

CHUBB & SON, Managers
No. 90 JOHN STREET, NEW YORK 7, N. Y.

NEW YORK, N. Y., August 5th, 1947

This is to Certify, *That this Company has insured under Policy No.* ***FO-15090,***

for ***AMERICAN BANK NOTE COMPANY,***
the sum of THREE THOUSAND FOUR HUNDRED SEVENTY 00/100 - - - - - - - - - - - *Dollars*
on Five (5) cases Printed Matter
Under Deck, Valued at Sum Insured
per S.S. CONSTANCIA *and/or other Steamer or Steamers,*
at and from New York, N. Y., to Paramaribo, Suriname
direct or otherwise

It is understood and agreed that in case of loss the same is payable to the order of

AMERICAN BANK NOTE COMPANY,

surrender of this certificate, which conveys the right of collecting any such loss as fully as if the property were covered a special policy direct to the holder hereof, and free from any liability for unpaid premiums. This certificate is subject to all the terms of the open policy, provided, however, that the rights of a bona fide holder of this certificate for value shall not be prejudiced by any terms of the open policy which are in conflict with the terms of this certificate.

The following Warranties shall be paramount and shall not be modified or superseded by any other provision included herein or stamped or endorsed hereon unless such other provision refers specifically to the risks excluded by these warranties and expressly assumes the said risks.

(A) Notwithstanding anything herein contained to the contrary, this insurance is warranted free from capture, seizure, arrest, restraint, detainment, confiscation, preemption, requisition or nationalization, and the consequences thereof or any attempt thereat, whether in time of peace or war and whether lawful or otherwise; also warranted free from all consequences of hostilities or warlike operations (whether there be a declaration of war or not); but this warranty shall not exclude collision, contact with any fixed or floating object (other than a mine or torpedo), stranding, heavy weather or fire unless caused directly (and independently of the nature of the voyage or service which the vessel concerned or, in the case of a collision, any other vessel involved therein, is performing) by a hostile act by or against a belligerent power; and for the purpose of this warranty "power" includes any authority maintaining naval, military or air forces in association with a power.

Further warranted free from the consequences of civil war, revolution, rebellion, insurrection, or civil strife arising therefrom, or piracy.

(B) Warranted free of loss or damage caused by or resulting from strikes, lockouts, labor disturbances, riots, civil commotions or the acts of any person or persons taking part in any such occurrence or disorder.

In case of loss or damage please follow instructions on the reverse side of this certificate.

It is hereby agreed that any loss or claim under this Certificate shall be paid at the office of the Company in New York, or at the offices of the Agents of the Company, Exchange Buildings, Liverpool, or at the Agency of the Company at port or place of destination, or, if the Company is not represented at port or place of destination, at the nearest Agency amongst those specified in the list on back hereof.

Claims to be adjusted according to the usages of Lloyds, but subject to the conditions of the Policy and Contract of Insurance.

NOTICE—To conform with the Revenue Laws of Great Britain, in order to collect a claim under this Certificate, it must be stamped within ten days after its receipt in the United Kingdom.

SPECIAL CONDITIONS

Under Deck shipments are insured:

Against all risks of loss or damage to the merchandise insured howsoever occurring, irrespective of percentage excepting risks excluded by the F. C. & S. (Free of Capture & Seizure) and Strikes, Riots and Civil Commotion Warranties appearing elsewhere hereon.

While on deck of ocean vessel:—

"Free of Particular Average unless caused by the vessel and/or interest insured being stranded, sunk, burnt, on fire or in collision with another ship or vessel or with ice or with any substance other than water, but liable for jettison and/or washing overboard, irrespective of percentage."

Marks and Numbers

GOVERNMENT OF
SURINAME
F12507

Original and duplicate signed, one of which being accomplished, the other to stand void.

Where the words "including M. E. C." are typed in the space below at the time the certificate is issued, this insurance is subject to the American Institute Marine Extension Clauses (April, 1943).

INCLUDING M.E.C.

Where the words "including Strike Risks" are typed in the space below at the time the certificate is issued, this insurance is subject to the American Institute S. R. & C. C. Clauses, form 5-A (Feb. 1941).

INCLUDING STRIKE RISKS

Where the words "including War Risk" are typed in the space below at the time the certificate is issued, this insurance is subject to the American Institute War Risk Clauses, form 3-M (Feb., 1946).

INCLUDING WAR RISK

ON DECK—Merchandise and/or goods shipped on deck which must be so specified in this certificate are insured.—Free of particular average unless caused by the vessel being stranded, sunk, burnt, on fire, or in collision, but including jettison and/or washing overboard, irrespective of percentage.

1. This insurance attaches from the time the goods leave the Warehouse and/or Store at the place named in the certificate or special policy for the commencement of the transit and continues during the ordinary course of transit, including customary transhipment if any, until the goods are discharged overside from the overseas vessel at the final port. Thereafter the insurance continues whilst the goods are in transit and/or awaiting transit until delivered to final warehouse at the destination named in the certificate or special policy or until the expiry of 15 days (or 30 days if the destination to which the goods are insured is outside the limits of the port) whichever shall first occur. The time limits referred to above to be reckoned from midnight of the day on which the discharge overside of the goods hereby insured from the overseas vessel is completed. Held covered at a premium to be arranged in the event of transhipment, if any, other than as above and/or in the event of delay in excess of the above time limits arising from circumstances beyond the control of the Assured.

2. Held covered while on craft to and from the vessel. Each lighter or craft to be considered as if separately insured. The Assured not to be prejudiced by any agreement exempting lightermen from liability.

3. This insurance shall not be vitiated by any unintentional error in description of vessel, voyage or interest, or by deviation, over-carriage, change of voyage, transhipment or any other interruption of the ordinary course of transit from causes beyond the control of the Assured. It is agreed, however, that any such error, deviation or other occurrence mentioned above shall be reported to this Company as soon as known to the Assured, and additional premium paid if required.

4. Notwithstanding any average warranty contained herein, these assurers agree to pay any landing, warehousing, forwarding, or other expenses and/or particular charges for which this policy in the absence of such warranty would be liable. Also to pay the insured value of any package, piece, or unit totally lost in loading, transhipping or discharge.

5. In case of loss or injury to any part of a machine consisting, when complete for sale or use, of several parts, these assurers if liable therefor under the terms of this policy, shall only be liable for the insured value of the part lost or damaged.

6. In case of damage affecting labels, capsules or wrappers, these assurers, if liable therefor under the terms of this policy, shall be liable only for an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods.

7. Including General Average and Salvage Charges according to United States laws and usage and/or as per Foreign Statement and/or as per York-Antwerp Rules (as prescribed in whole or in part) if in accordance with the Contract of Affreightment.

8. Including the risk of explosion, howsoever or wheresoever occurring during the currency of this insurance, unless excluded by the F. C. & S. Clause or the S. R. & C. C. Clause set forth herein.

9. Where this policy by its terms covers while on decks, wharves, or elsewhere on shore and/or during land transportation, such coverage shall include the risks of collision, derailment, or overturning of the conveyance, fire, cyclones, hurricanes, earthquakes, floods (meaning the rising of navigable waters), and/or collapse or subsidence of docks, and to pay loss or damage caused thereby, even though the insurance be otherwise F.P.A.

10. The assured are not to be prejudiced by the presence of the negligence clause and/or latent defect clause in the Bills of Lading and/or Charter Party. The seaworthiness of the vessel as between the assured and the Underwriters is hereby admitted and the wrongful act or misconduct of the shipowner or his servants causing a loss is not to defeat the recovery by an innocent assured if the loss in the absence of such wrongful act or misconduct would have been a loss recoverable on the policy. With leave to sail with or without pilots, and to tow and assist vessels or craft in all situations, and to be towed.

11. Warranted free of claim for loss of market or for loss, damage or deterioration arising from delay, whether such delay be caused by a peril insured against or otherwise, unless the risk of delay is expressly assumed in writing hereon.

12. Where goods are shipped under a Bill of Lading containing the so-called "Both to Blame Collision" Clause these assurers agree, as to all losses covered by this insurance, to indemnify the assured for this policy's proportion of any amount (not exceeding the amount insured) which the assured may be legally bound to pay to the shipowners under such clause. In the event that such liability is asserted the assured agrees to notify the assurers who shall have the right at their own cost and expense, to defend the assured against such claim.

13. Warranted that this insurance shall not inure, directly or indirectly, to the benefits of any carrier or bailee.

Not Valid unless Countersigned by J. M. FLYNN or B. BERTOSEN.

Countersigned, J. M. Flynn

Chubb & Son *Managers.*

Printed in U. S. A. 54439

INSTRUCTIONS TO CLAIMANTS

Any loss or damage which may happen to the property insured under this certificate shall be reported as soon as the goods are landed or the loss is known or expected, to the agent of the Insurers located at the port of discharge or disaster (see list below). If there be no such agent at or near such port, such notice shall be given to an accredited representative of the Board of Underwriters of New York. *In case of loss or damage, produce this certificate for said agent's or representative's inspection and request him to hold a survey and issue a certificate stating the cause and extent of the loss or damage.* If there be no agent of the Insurers at the port of discharge or disaster, nor a representative of the Board of Underwriters of New York, certificate of survey should be obtained from Lloyds agent at destination.

After the foregoing formalities have been complied with, the complete documents (survey report, policy, invoice, bill of lading, letter to carrier and latter's reply) should be sent to the Insurer's agents (named below) to enable them to decide as to the liability of the Insurers.

IMPORTANT NOTICE

When cargo is received from the carrier in a damaged condition, or in case of loss by theft, pilferage, non-delivery or negligence (if covered by this insurance) in order to save for yourselves or your underwritors, any rights which you may have against the carrier, it is necessary for you to file notice of claim in writing against the carrier before taking delivery of the goods. Claim in writing must be filed with the carrier as soon as the actual loss or damage is known and a copy thereof and a reply thereto must accompany any claim presented under this insurance certificate, in addition to the usual certificate of loss issued by the Underwriters Agent. Filing claim against the carrier will not affect your rights under your insurance certificate.

Consigned to: H.E., The Governor of Suriname,
Paramaribo, Suriname.
Per SS "CONSTANCIA".

Gentlemen:

Referring to your shipping instructions of July 30th, covering the above shipment, please find enclosed herewith the following documents:

(1) Three Originals and One Non-Negotiable Copy of Royal Netherlands Steamship Line B/L No. 65.

You will note that the clause "Special Cargo Stowage" has been deleted by the carrier as it is against their policy to have this clause appear on any of their Bills of Lading. We have been assured by the Royal Netherlands Line that the 5 Cases in question were given "Special Locker Stowage" and received the same care even though the clause does not appear on the bill of lading.

(2) Our statement in the amount of $56.33.

Kindly let us have your remittance in the above amount at your early convenience.

Yours very truly,

W.T. McDermott

Gentlemen: re: Government of Suriname

We have not as yet received payment of our bills dated August 1st and August 8th,1947, covering shipping expenses on Scrip Certificates authorized by your letter of May 3,1947, your No.5577. We are therefore enclosing herewith duplicate sets, each in triplicate, in case the originals may have gone astray.

We will appreciate your kind cooperation in arranging for remittance to close these small items on our records.

Very truly yours,

AMERICAN BANK NOTE COMPANY

Treasurer.

TELEGRAPH SERVICE BY CABLE AND RADIO TO ALL PARTS OF THE WORLD

CLASSES OF SERVICE

ORDINARY SERVICE—Ordinary messages receive prompt transmission throughout, subject to priority of GOVERNMENT and URGENT PRESS messages. Ordinary messages may be either FULL RATE or CODE (CDE) RATE, both of these categories having equal rank in transmission.

FULL RATE—Messages in this category are those which do not qualify as CDE under the CODE (CDE) regulations. They may be written in plain language or cipher (secret) language, or both.

CODE (CDE) RATE—Under this category, code words must not contain more than five letters. Figure groups, trade terms and commercial marks composed of figures and letters, may not exceed fifty percent of the total number of words in the text and signature. Minimum charge of five words applies.

****DEFERRED (LC) SERVICE***—Deferred messages are subject to deferment in favor of FULL RATE and CODE (CDE) RATE messages of the same date. Such messages must be written wholly in one plain language. Minimum charge of five words applies.

****NIGHT LETTER (NLT) SERVICE***—This service is designed especially for business or social messages written wholly in one plain language. Delivery is effected on the day after filing except as otherwise indicated in the Company's Tariff on file with the Federal Communications Commission. Minimum charge of twenty-five words applies.

*Figure groups, trade terms and commercial marks must not exceed one-third of the total number of words in the text and signature.

Scrip Certificates

We now have an inquiry from the above for the furnishing of 1,000,000 Scrip Certificates in one denomination. It will be a new denomination but otherwise the cerficates will be, in general, like those of 1 Gulden last prepared on order F12507.

Will you please inform us what delivery we could promise, assuming the order is placed promptly.

Apparently this inquiry replaces the one referred to in our memo of July 8th.

TELEGRAPH SERVICE BY CABLE AND RADIO TO ALL PARTS OF THE WORLD

CLASSES OF SERVICE

ORDINARY SERVICE—Ordinary messages receive prompt transmission throughout, subject to priority of GOVERNMENT and URGENT PRESS messages. Ordinary messages may be either FULL RATE or CODE (CDE) RATE, both of these categories having equal rank in transmission.

FULL RATE—Messages in this category are those which do not qualify as CDE under the CODE (CDE) regulations. They may be written in plain language or cipher (secret) language, or both.

CODE (CDE) RATE—Under this category, code words must not contain more than five letters. Figure groups, trade terms and commercial marks composed of figures and letters, may not exceed fifty percent of the total number of words in the text and signature. Minimum charge of five words applies.

****DEFERRED (LC) SERVICE***—Deferred messages are subject to deferment in favor of FULL RATE and CODE (CDE) RATE messages of the same date. Such messages must be written wholly in one plain language. Minimum charge of five words applies.

****NIGHT LETTER (NLT) SERVICE***—This service is designed especially for business or social messages written wholly in one plain language. Delivery is effected on the day after filing except as otherwise indicated in the Company's Tariff on file with the Federal Communications Commission. Minimum charge of twenty-five words applies.

*Figure groups, trade terms and commercial marks must not exceed one-third of the total number of words in the text and signature.

SEP 26 1949

GOVERNMENT OF SURINAM

Governments - Secretary
Division La. F.
Bureau No. 4434/A
No.3204

E. W. R.
NOV 4 1949

Paramaribo, July 26, 1949

I herewith request the intermediary of your Honorable to order with the American Banknote Company at New York the following banknotes:

100.000 banknotes of f.100

100.000 banknotes of f. 25

400.000 banknotes of f. 10

The banknotes have to be of equal sizes and must show the same design, but in three different colors. On the face,they must bear the following inscription:

"De Bank van Suriname te Paramaribo betaalt aan toonder.. ..... gulden" with the declared value in figures in all four corners.

On the back, twice the serial number, as well as twice the date of issuance and further the following inscription:

" Hij, die opzettelijk als echte en onvervalste muntspe-
"cien of munt of bankbiljetten uitgeeft, muntspecien of munt
"of bankbiljetten, die hijzelf heeft nagemaakt of vervalst of
"waarvan de valsheid of vervalsing hem, toen hij ze ontving
" bekend was of deze met het oogmerk om ze als echt en onver-

"valst uit te geven of te doen uitgeven, in voorraad heeft of "binnen Suriname invoert,wordt gestraft met gevangenisstraf van "ten hoogste 9 jaren."

However, before carrying out the aforementioned order,I would like to receive a specimen of the banknotes and a sample of the paper to be used in order to judge the quality of the paper and the artistic value of the design.

I would appreciate it very much if the picture on the face of the banknotes could be formed by a group of five girls,representing the different races of the population: a creole,a hindostanie, a negress, a javanese and an indian (aborigine).

The girls, portrayed in bust, would have the arms around each other's shoulders, in order to express the idea of unity.

I trust you will be able to find enough material which may serve as a model for the picture which should have a special Surinam character. Dr. J.Einaar will, undoubtedly, be in a position to advise you.

For your information I may add that The American Banknote Co. already furnished a statement of price to the Treasurer of Surinam, amounting to U.S.$ 8.100.- (eight thousand one hundred American dollars) f.o.b. New York.

Pointed out to Dr. Einaar this was for reprint. For new notes price to be much higher.

The Governor of Surinam

For the Governor

The Acting Government Secretary

COPY

GOUVERNEMENT VAN SURINAME

REC'D WITH Consul's LETTER 9/13/49

Gouvernements-Secretarie

Afdeling La. F.
Bureau No. 4434/A
No.3204
BIJLAGEN:

Paramaribo, 26 Juli 1949

Hierbij heb ik de eer UHoogEdelGestrenge te verzoeken wel Uw bemiddeling te willen verlenen tot het bestellen bij de American Banknote Company te Uwent van de navolgende bankbiljetten, t.w.:

100 000 bankbiljetten van f.100.-
100 000 " " f. 25.-
400.000 " " f. 10.-

De bankbiljetten zullen moeten worden uitgevoerd in gelijke formaten en afbeeldingen doch in drie verschillende kleuren.

Aan de voorzijde zullen zij het opschrift moeten dragen:
"De Bank van Suriname te Paramaribo betaalt aan toonder..... gulden" met de waarde-aanduiding in cijfers in alle 4 hoeken.

Aan de achterzijde tweemaal het volgnummer, alsmede tweemaal de datum van uitgifte en voorts nog het navolgende opschrift:
"Hij, die opzettelijk als echte en onvervalste muntspecien of munt of bank-
"biljetten uitgeeft, muntspeciën of munt of bankbiljetten, die hijzelf heeft nage-
"maakt of vervalst of waaraan de valsheid of vervalsing hem, toen hij ze ontving
"bekend was of deze met het oogmerk om ze als echt en onvervalst uit te geven of
"te doen uitgeven, in voorraad heeft of binnen Suriname invoert, wordt gestraft met
"gevangenisstraf van ten hoogste 9 jaren".

Alvorens evenwel tot uitvoering van voormelde bestelling over te gaan, zou door de American Banknote Company eerst een ontwerp en een monster van het te bezigen papier dienen te worden overgelegd, teneinde dezerzijds de kwaliteit van het papier te kunnen nagaan, alsmede het ontwerp op zijn artistieke waarde te kunnen beoordelen.

Ik zou er prijs op stellen indien de afbeelding op de voorzijde van het biljet zou kunnen worden gevormd door een vijftal meisjesfiguren, uit de voornaamste groepen van de bevolking t.w.: een creoolse, een hindostaanse, een negerin, een javaanse en een indiaanse.

De tot op borsthoogte af te beelden figuren hebben om en om de armen om elkaars schouders geslagen, teneinde het idee van de saamhorigheid tot uitdrukking te brengen. Ik vertrouw dat te Uwent voldoende materiaal aanwezig is dat dienen kan als model voor de te maken afbeelding, welke uiteraard een uitgesproken Surinaams karakter moet hebben, waaromtrent de heer Dr. J. EINAAR ongetwijfeld van advies zal kunnen dienen.

Aan de Consul Generaal
der Nederlanden
New York.

Te Uwer informatie diene dat van de American Banknote Company voornoemd door de Administrateur van Financiën hier te lande bereids prijsopgaaf werd ontvangen van voormelde bestelling, bedragende US $8.100.- (Acht duizend eenhonderd Amerikaanse dollars) f.o.b. New York.

De Gouverneur van Suriname,
Voor de Gouverneur,
De wd. Gouvernements-Secrertaris,

w.g.

A. D. Fernandes

S i r :-

With reference to the cables recently exchanged between us, we beg to confirm our quotations for new denominations of silver certificates similar, in general, to those of 1/2 and 1 Gulden heretofore furnished. Our prices, as advised in our cables of July 13th and 22nd are:

For 600,000 Certificates in 3 denominations - $8,100.00

or for 1,000,000 Certificates in 1 denomination - $12,500.00

these figures being in U. S. Currency, F.O.B. New York; terms of payment as in the past.

We estimate that a part of either quantity could be made ready for shipment about two months after receipt of your insturctions to proceed, completing the smaller quantity in one month and the larger quantity in two months additional. Should you have more urgent requirements you may count on our fullest efforts to meet them.

We will be happy to assist you in any way within our power and look forward to your further communications.

With assurances of our high esteem, we remain, Sir,

Yours very truly,

Attention Dr. J. Einaar

Gentlemen: Re: De Bank van Suriname

We refer to yours of September 23rd and the several conversations of our J. W. Beckett with Dr. Einaar.

As explained to Dr. Einaar, the quotation we made to the Government of Surinam, to which it referred in its letter to you of July 26th, was for further quantities of the silver certificates previously furnished. It will be recalled that these certificates were originally prepared to meet an emergency of the Government which required almost immediate delivery. In order to meet that situation, we utilized one of our stock forms consisting of a steel engraved border and vignette on the face and a lithographed pattern on the back, with all text matter on both face and back surface printed. Our quotation of $8,100.00 for furnishing 600,000 pieces divided among 3 denominations was based upon a continuation of this style of document.

We now understand it is intended that De Bank van Suriname contemplate an entirely new issue to replace both the silver certificates we have heretofore furnished the Government and the engraved notes we have heretofore furnished De Surinaamsche Bank, which naturally will require maximum protection against reproduction. This can only be accomplished by the use of a specially designed steel engraved and intaglio printed issue.

Therefore, as requested by you, we have handed to Dr. Einaar face and back models of one denomination (25 Gulden) for this proposed new issue, in which we have incorporated the pictures you furnished of the five girls representing the different races. Mindful of the suggestion that they be grouped so as to show their arms around each other's shoulders, our artists made many attempts to carry out this idea, but they found that arrangement did not prove to be either artistic or practicable in the design of the note as a whole. We have thus presented the model with an arrangement which we believe to be the most dignified and effective. We were pleased to learn that Dr. Einaar found the models pleasing, and naturally we trust they will likewise meet with the approval of the officials in Paramaribo.

File

E. W. R.
NOV 4 1949

On the basis of the models submitted to Dr. Einaar, we propose furnishing the notes as follows: steel engraved and intaglio printed face, with an underlying surface printed tint; steel engraved and intaglio printed back; numbers and issue date each typed in two places on the back; notes cut single and securely packed for export shipment.

For a quantity of 600,000 pieces divided among 3 denominations, viz.:

400,000 notes - 10 Gulden
100,000 " - 25 "
100,000 " - 100 "

we quote the sum of .....$ 21,500.00 U.S. Currency, F.O.B. New York.

If the Bank would like to consider ordering double the quantity, or a total of 1,200,000 pieces divided as follows:

800,000 notes - 10 Gulden
200,000 " - 25 "
200,000 " - 100 "

our quotation would be ..... $ 31,500.00 U.S. Currency, F.O.B. New York.

It is understood that the notes of all three denominations would be of the same size as the models submitted for the 25 Gulden denomination, and that the 10 and 100 Gulden denominations would be essentially of the same design and arrangement as the models submitted, but with variation in the denomination counters, etc. so as to distinguish between them, and each denomination would of course be printed in a distinctively different color.

We understand that the signature titles shown are perhaps incorrect, but in this respect, as also in the case of any inaccuracies in spelling or punctuation of text, the models can easily be changed. We therefore ask that the models be carefully examined and any necessary corrections noted thereon and returned.

The same terms of payment as before will be agreeable to us, namely, an irrevocable letter of credit on a New York City bank for the amount of the order plus a sufficient amount to cover shipping expenses, payable to us as partial lots become ready for shipment or, if shipping is withheld for any reason, upon presentation of our certificate of manufacture.

We have handed Dr. Einaar a sample of our Standard Bank Note Planchette Paper which we propose using. It is of the same quality as that used for the last order of 1 Gulden certificates and represents the most durable bank note paper obtainable.

File

E. W. R.
NOV 4 1949

We would explain that since this proposal embodies the necessity for entirely new steel engravings throughout, including the portraits of the 5 girls, a minimum of 6 to 9 months after approval of models and receipt of all details should be allowed for preparation of the same. Before the expiration of that period, we would of course be able to give you a firm delivery schedule.

This proposal is made with the understanding that the engravings from which the notes are printed shall always remain in our custody and are to be printed from only by us or destroyed in our premises upon receipt of official authorization; also, that our performance must necessarily be subject to all delays and cessations resulting from causes beyond our control.

We trust that our proposal will meet with approval and that we may soon receive advice accordingly. We very much appreciate the privilege of having served your Government and the Surinaamsche Bank, and we can assure you that we will exert every effort to continue to meet their needs with product and service of the highest quality.

With assurances of our highest esteem,

Yours very truly,

(W.F.C.)

Surinam - Bank Notes
(De Bank van Surinam)

Dr. Einaar, Netherlands Consul in charge of Surinam affairs asked me to call upon him, which I did. His object was that I should discuss our proposal of November 2nd with a Dr. Lakarra (?), an Economist and U.N. Delegate, who was returning to Surinam the next day. I did so, explaining why we could not combine the girls into a group, as requested, why our price for the new issue was, of necessity higher than for the scrip certificates, and in general, emphasizing the worth of our product, rigid controls and safeguards during production, wearing quality of our paper, etc.

Surinam Bank Notes
(De Bank van Surinam)

At Dr. Einaar's request I called upon him this afternoon and he informed me he had received a letter from Surinam saying they had ordered the notes elsewhere as they did not like our price, models nor delivery time.

Dr. Einaar was personally upset as he had felt our proposal was favorable and had liked our model, as had the Consul General and others to whom he had showed them.

Although the letter he received did not say where the order had been placed he was confident it was not in this country.

He promised to write us and give us a copy of the letter he received. He is agreable to our writing Surinam direct if we desire.

J.W.B.

During the conversation I asked that the models be returned.

Dear Sirs,

With reference to the interview 12/8/49 Dr. Einaar of this Consulate General had with Mr. John W. Beckett of your Company, I am herewith forwarding to your address a translation of a letter received from the Surinam Government. ./.

According to this conversation I informed the Surinam Government that your Company, as well as the Government, regretted that this time no order could be placed as regards the banknotes but that both your Company and the Surinam Government will appreciate to continue in the future their agreeable relationship.

Yours faithfully,

Jne

RECEIVED Consul General's
NOTHING FOR FILING LETTER 12/14/49

A.M.E.S.
DEC 15 1949

With reference to your letters No.6773 and 6900 dated November 1 and 4, 1949 resp. I wish to inform Your Honor of the following:

The design of the banknote as received from the American Banknote Company is far from being nice and the sample therefore useless.

It was not my intention to have the original photographs printed on the banknotes (this is not agreeable to the persons concerned, and still residing in Surinam). I expected a design to be drafted by which the various population-types should be linked with the photographs sent.

Since the artistic co-workers of the American Banknote Company failed to understand our ideas, there is no sense getting further into the matter.

Also from another standpoint the offer of the American Banknote Company became less attractive.

Price in line with those to Amsterdam Bonds in 1941 & 1942

The price, which it will charge is about 150 per cent above the original offer. The reason for this difference in price is not very clear to me.

Per our letter 8/1/49

The American Banknote Company stated as the reason for this increase, that its original offer was based on the assumption that the old currency-notes would be reprinted. Apart from the fact that it is less acceptable for the Government of Suriname to have banknotes of f.10.-, f.25.- and f.100.- printed in the simple models of the existing currency notes of f.1.-, it appears to me, that the American Banknote Company would have realized that it had no need to reprint the currency-notes, after having been informed by your Consulate General concerning the contents of my letter No.3204 dated July 26, 1949.

Their letter 7/26/49 received by us 9/26/49

I would have appreciated it very much if you had informed me immediately regarding the very high increased offer and also the very considerable extended delivery-time, which would be attached to the desired execution.

The price and the delivery-time of the American Banknote Company are at the moment less favorable than those received from others, therefore I placed the order somewhere else.

I assume that your Consulate General did not place any definite order with the American Banknote Company on behalf the Surinam Government. In case the American Banknote Company

FILING
JAN 19 1950

might reasonably be of the assumption that the order has been placed with them already, I would like to be informed accordingly.

In that case, I will be able to follow a further determined course since I would appreciate it very much to continue and not to disturb the agreeable relationship with the above-mentioned Company, due to misunderstanding with regard to the delivery of the banknotes.

His Excellency
The Governor of Suriname
Paramaribo, Suriname.

S i r:

The Consulate General of The Netherlands in this city has transmitted to us your views concerning the models of the proposed 25 Gulden note of De Bank van Suriname which we had the honor of submitting to you through it, and concerning our proposal in connection therewith, and it has also returned the models to us .

In view of our long-standing relations with your Government and De Surinaamsche Bank, we deeply regret that you found our models and proposal unacceptable and that you have decided to place this order elsewhere.

Since your reasons for reaching this decision indicate a misunderstanding on our part of your wishes, it seems desirable to review the previous orders by your Government and the instructions we received in connection with this proposed order, so that you may understand the basis of our proposal.

As you may recall, the original order of your Government for the printing of 1 Gulden and 1/2 Gulden silver certificates was placed with us in early June, 1940, at a time when events of the preceding weeks had made the need for these certificates extremely urgent. In order to meet those needs, we suggested, and your Government approved, the preparation of a very simple style of note, involving the use of stock steel-engraved forms and a stock vignette, combined with lithographic printing, which would enable us to make the quick delivery required and to keep the cost of the notes as low as possible.

It was recognized by your Government and by us, however, that this issue was provisional and temporary, and that the certificates embodied only the minimum protection against successful counterfeiting. Accordingly, when the Consulate General, shortly thereafter, informed us of the desire of your Government to increase the quantities of these certificates, we advised it as follows:

> "These Silver Certificates, even if they may be considered to be fractional currency, will represent actual money when they are placed in circulation, and we feel that the Government of Surinam will be well advised to give due consideration to the importance of having the final issue prepared in such a way that the certificates will be fully protected against successful counterfeiting.
>
> "The Certificates we are making at the present time were intended as a provisional issue to tide over an emergency whilst

File

FILING
JAN 17 1950

"the final certificates could be engraved and printed, but they do not have the essential protection against counterfeiting which such an issue should have."

Subsequently, in April, 1947, when we received from the Consulate General a request for a quotation on an additional quantity of these certificates, we stated:

"We beg to take this opportunity to remind the Government of Surinam through your good offices that this issue was originally designed as an emergency and temporary one. It is therefore our recommendation that these temporary certificates be replaced at an early opportunity by a permanent issue incorporating all up to date features of security."

Our purpose in reviewing the history of these silver certificates is twofold - first to recall to you that they were recognized as being temporary notes, which did not contain all of the protective features essential in a permanent issue and could be printed quickly and at a relatively low cost, and secondly to explain our understanding of your wishes in connection with our recent proposal.

The initial inquiry with respect to the proposed new order was contained in the following cable received by us from your Administrator of Finance on July 5, 1949:

"Please cable approximate price and term of delivery six hundred thousand banknotes <u>same type</u> three different denominations and colours."

In view of your previous orders and the correspondence mentioned above, we interpreted this inquiry as referring to notes of the same type as we had previously furnished, but of new denominations. We therefore cabled to the Administrator of Finance on July 13th, giving our quotation of $8,100. and our proposed partial shipment in approximately two months, completing delivery about one month later. This proposal was based upon the printing of notes of the same type as previously printed.

After a further exchange of cables concerning a change to 1,000,000 notes of one denomination, we cabled to the Administrator of Finance on July 22nd, giving our new quotation and proposed delivery time and renewing our previous recommendation that this temporary emergency issue be replaced by a permanent issue incorporating all the latest security features.

We believe it will be apparent to Your Excellency from this cable that our quotations of July 13th and July 22nd were for the same style of temporary notes. On August 1st we confirmed these quotations in a letter to the Administrator of Finance, stating that they were "for new denominations of silver certificates similar, in general, to those of 1/2 and 1 Gulden

File

FILING
JAN 17 1950

His Excellency
The Governor of Suriname
Paramaribo, Suriname.

January 16,1950

heretofore furnished."

Subsequent to our letter of August 1st, we were advised by the Consulate General of its receipt of a letter dated July 26th from the Acting Government Secretary, the Honorable A.D. Fernandes, conveying your request that an order be placed with us for a total of 600,000 bank notes of three denominations, giving certain details concerning the form and text of the notes desired and requesting that a specimen of the notes and a sample of the paper be submitted to you.

We were advised that this letter stated that we had given a price of $8,100. for these notes, whereupon we informed the Consulate General that the price quoted was for the temporary notes and that our price for a new issue of notes, involving all security features and substantial new engraving costs, would of necessity be much higher.

Immediately upon receipt of advice that Your Excellency desired us to prepare a new issue of notes, we began the task of preparing the models of notes which would furnish the protection necessary in a permanent issue and would, in their appearance, embody a dignity and beauty of design appropriate to the Government of Suriname. We believed that we had accomplished this purpose, and it is a matter of genuine regret that our suggestions did not meet with your approval. They were, however, merely suggestions, formulated without having had an opportunity of detailed discussions concerning the wishes of Your Excellency, and we would have been happy to make any modifications necessary to meet your views.

We are advised that the principal objection of Your Excellency to the models submitted relates to the manner in which the five female figures were incorporated into the design. In this connection, we wish to point out that our only information concerning the desired treatment was that contained in the above-mentioned letter of July 26th, which requested the Consulate General to furnish us with the material to be used. Dr. J. Einaar very kindly supplied us with a number of photographs, from which five were selected. For designing purposes these were merely superimposed upon the model, although the finished notes would naturally have reflected our engraver's treatment of the individual subjects. We explained, in our letter of November 2nd to the Consulate General, that our artists had made many attempts to carry out the suggestion that these figures be portrayed with their arms around each others shoulders, but that this treatment had not been found artistic or practicable in the design of the note as a whole. It was not our understanding, however, that Your Excellency desired our engravers to work from an artist's painting of the respective types, rather than from the photographs furnished.

In retrospect, it seems apparent that our failure to secure Your Excellency's approval of our models and proposal resulted primarily from insufficient information concerning your intentions and desires, plus a misunderstanding based upon the difference in cost of your temporary certificates

File

and an entirely new issue of permanent notes. It is regrettable that this should have occurred, for we are confident that we could have furnished Your Excellency with an issue of notes worthy of the Government of Suriname, embodying the highest degree of protection against fraudulent reproduction and, from the standpoint of excellence of engraving and printing and wearing qualities, greatly superior to any notes obtainable elsewhere.

We have noted Your Excellency's statement that our price and delivery time are at the moment less favorable than those received from others. We do not doubt that this is so, particularly in view of the abnormal - and, we believe, temporary - situation created by the recent devaluation of certain currencies. We believe, however, that, in a matter so important as the permanent currency of a country, considerations of price and delivery time should be subordinated to those of quality of product, responsibility and service. The only real safeguard against the counterfeiting of bank notes lies in the highest quality of steel engraving and intaglio printing. These require an adequate amount of time for their proper execution, and they entail a certain amount of expense. Substitutes are obtainable, sometimes resulting in temporary economies, but they can, and frequently do, have consequences which are very serious and costly.

We should also like to mention that the price quoted by us was comparable with our prices for notes furnished to De Surinaamsche Bank, with due allowance for intervening increases in labor and material costs, and we believe you will find that the experience of that Bank with our notes was completely satisfactory.

We ask Your Excellency's indulgence for this detailed and rather lengthy expression of our views. It is prompted by our pride in the service we have been privileged to render to the Government of Suriname and De Surinaamische Bank in the past and our sincere conviction that we are able to furnish, at a fair and reasonable price, a product and a service which the Government of Suriname should have and which it cannot obtain from any other source.

Concerning Your Excellency's inquiry whether we had understood that an order had been placed with us for these notes, we wish to assure you that, while we had looked forward with pleasure to performing this service for your Government, we did not assume that an order had been placed or that any obligation existed on the part of your Government.

With assurances of our high esteem and our pleasure in serving Your Excellency whenever the occasion may arise,

Very truly yours,

AMERICAN BANK NOTE COMPANY

Subject:
Statement of prices scrip certificates in new design

To the Consul General
of the Netherlands at
New York.

I herewith have the honor to request your intermediary in receiving some information from the American Banknote Company concerning the price and terms of delivery of 1,000,000 (one million) resp. 2,000,000 (two million) scrip certificates of f.l.-(one guilder) according to a new design to be drawn up.

The price should include the expenses of the design.

Moreover, I may call your attention to the fact that no order is at stake, but that, for the present, only a statement of prices is required.

The Treasurer,

w.s. H. Specken.

(Not part of name. Means "was signed" per Dr. Emaus.

per 12/28

For translating the dutch word "Zilverbons" Dr Emaus took this from our war-time correspondence. I pointed out to him that "scrip" is temporary, whereas our understanding is that a permanent issue is now contemplated which he confirmed. When I explained the meaning of "scrip" he agreed it was incorrect and suggested that "currency note" be substituted, or "silver certificate" as I suggested. Dr S

Silver Certificates

W.F.C. NOV - 1 1951

Pursuant to his request, I called yesterday afternoon on Dr. J. F. Einaar, Consul of the Netherlands handling Suriname affairs. He informed me that he had received a letter from the Treasurer of Suriname which he translated to me substantially as follows:

> "Please obtain from the American Bank Note Company its quotation and estimate of delivery time on 1,000,000 or 2,000,000 "Zilverbons" of 1 Gulden, of a new design, the quotation to include the cost of the design. This is not to be construed as an order".

Dr. Einaar understood that the new certificates are to be of a definitive nature to replace the temporary ones we previously furnished but that the size should be the same as the temporary ones, also that the text should be the same except for the addition of the letter "S" and the word "Surinaamsche" in connection with the denomination, thus: "een Surinaamsche gulden (Sfl)", inasmuch as Suriname now has its own currency. He felt a special vignette would not be required and suggested land reclamation or hydroelectric power as suitable subjects for an allegory, as these are two projects which the government is forwarding.

I agreed to inform him relative to our quotation within a few days.

During the conversation I spoke about the notes for which an order was supposedly placed elsewhere two years ago, inquiring as to what they were like as I had not seen one. Dr. Einaar said that he has not seen them either, although he was in Suriname last May and June. He further said that, although at the time he had been informed that an order had been placed, and he thought it to have been with Enschede, he since has come to the conclusion that such was not the case, inasmuch as the government subsequently decided to drop the project of the new government bank of issue, for which the new issue was intended, as being untimely and costly. He said that De Surinaamsche Bank is still a bank of issue.

JWB:mg

J.W.B.

11/7/51. Informed Dr. Einaar model is being forehend and proposal will be submitted with it, when completed, probably within about 2 weeks. Dr. Einaar will so inform Paramaribo.

re: Suriname Bank Note

I am enclosing a very rough model showing the general layout in order to facilitate the selection of a suitable vignette. One vignette has been placed on the layout and the others cut out so they can be flapped. The one on the layout would require engraving the power house to the right of the figure. This would require two to three weeks work. Flap No. 2, is the same subject as now on hand, without the power house and would not require any additional engraving if acceptable without the power house. Vignette No.3, is also on hand requiring no additional work. No. 4, is a tropical scene with power house added and would require two to three weeks time to engrave the power house. No. 5, is the same subject as on hand and would require no additional work.

The lettering on the rough layout is just dummy copy to show general plan as we did not want to spend much time on it until the vignette is selected.

If the larger vignette, (4 and 5) was used, a different frame would be required to the right of it, and the number at the lower left in the signature panel would have to be placed in the upper section to the right of the vignette, in the clouding.

Government of Suriname
1 Gulden Silver Certificates

This is in reply to your request of November 13, 1951 for 1,000,000 or 2,000,000 of the above. We refer to the second paragraph of above letter wherein the size was changed to 6 x 2 7/8, permitting the printing to be 28/on instead of 32/on.

After approval of models and contingent on the face and back dies being approved immediately upon submission, we can begin a delivery on an order of 1,000,000 certificates in 4 months, and completing in an additional 1/2 month for a total of 4 1/2 months.

On an order of 2,000,000 certificates, we can begin delivery in 4 months and complete in an additional month for a total of 5 months.

L. V. Buttnebel

FILING
JAN - 2 1952

Dear Sir:

We refer to your letter of November 15th, enclosing a translation of a letter dated October 22nd from the Suriname Treasurer, and to our several subsequent conversations with Dr. J.F.Einaar relative to the new Silver Certificates of 1 Gulden for Suriname. We are pleased to submit our proposal herein, in duplicate for your convenience in forwarding one copy to Paramaribo.

While it is somewhat difficult to design a note without more detailed information as to the components to be included, from our conversations with Dr. Einaar it is our understanding that the new design is to be for a definitive issue to replace the temporary certificates previously furnished, and that it is to be of the same size and is to include substantially the same text as the old design, incorporating one of our stock vignettes.

We are pleased to enclose herewith, in a leather folder, the face and back models which we have developed in line with these requirements. We feel that the designs are most attractive and trust they will have the approval of the Government. We shall appreciate having our models returned to us in due course, bearing the approval of the Government if they are found to be in order.

In the preparation of bank notes, maximum security can only be provided by means of high quality intaglio printing direct from skillfully line engraved steel plates, and we propose such printing on both the face and the back of the new notes, plus a supplementary surface printed underlying multicolored tint on the face, as illustrated by our models.

The paper on which we propose to print the new notes will be our standard bank note paper, prepared to our sole specifications by the same firm that furnishes to the United States Government the paper for its currency notes. It is the paper that we use exclusively for currency notes, and is the finest and most durable bank note paper available.

It is our understanding that the notes are to be numbered in two places on the face and are to be divided into series of not less than 50,000 notes each. As indicated in our model, the series letters will be printed in the same color as the numbers.

File

The Honorable
Baron Jan A. de Vos
New York 20, New York

December 28, 1951

FILING
JAN - 2 1952

The date line and signatures will be printed in the same color, which may be either the color of the certificates, as indicated by our model, or black if preferred.

To show the position of the date, series and signatures, we have used material on hand from previous orders, but it is understood that the notes will carry whatever the order designates in this respect.

While we have used substantially the same text as previously, you will observe that we have omitted the words "Zilverbon" and "Groot". If these words are not essential, a less crowded appearance is possible. Dr. Einaar will recall that we raised this question with him, and it was his suggestion that we present the models in this form for the consideration of the Suriname officials. We will be pleased to have their comments for our guidance.

For furnishing notes as per our models and in accordance with the above comments, our prices are:

1,000,000 notes - $16,000.00
2,000,000 " - $29,500.00

U.S.Currency, F.O.B. New York.

The same terms of payment as heretofore will be agreeable to us, namely, an irrevocable letter of credit confirmed by a New York City Bank for the amount of the order plus a sufficient amount to cover shipping expenses, payable to us as partial lots are shipped or, if shipping is withheld for any reason beyond our control, upon presentation of our certificates of manufacture.

While it is not possible to give a definite delivery promise prior to receiving the order, we would estimate that, barring causes of delay beyond our control and provided that proofs are promptly approved, we could have a partial quantity ready for shipment within about four to five months after receipt by us of the approved models, completing the order about one month later.

We hope that we shall have the honor of rendering this further service to the Government of Suriname, for we are confident that we can furnish it notes embodying a quality of security protection, artistic beauty and dignity, and resistance to wear which can not be obtained anywhere else.

If the Government decides to place an order with us, we shall appreciate being advised of the necessary details concerning numbering, signatures, series, colors etc., upon receipt of which we shall forward the Government a form of agreement covering the details of the order.

SUBJECT: Government of Surinam - Silver Cts.

Called Dr. Einaar & ask if he had heard anything re our proposal of 1/28. He has not.

I mentioned that increasing difficulty of promptly obtaining materials make it desirable to order with as much anticipation as possible if early delivery required. Reiterated our desire to cooperate.

He suggested we pass this information on to Paramaribo directly. He first suggested addressing the "Lands Financien of Finance" but when I pointed out that the inquiry came from Mr. Sheehan, the Treasurer, he said it would be preferable to address the latter.

Dear Sir:

We refer to our proposal of December 28, 1951 submitted to the Netherlands Consul General in this city, relative to which we spoke yesterday with Dr. Einaar, informing him that due to the increasing difficulty of promptly obtaining materials it is becoming harder to provide prompt deliveries and thus it is desirable that orders be placed with as much anticipation as possible. At Dr. Einaar's suggestion, we are passing this information to you as we are anxious to serve you expeditiously and to your entire satisfaction.

If there is any further information you desire in connection with our proposal, or any changes to be considered, we place ourselves at your disposal, and look forward with interest to your advices.

Very truly yours,

AMERICAN BANK NOTE COMPANY

Memorandum

SURINAME SILVER CERTIFICATES

Yesterday I saw Dr. Einaar, Consul of the Netherlands, at his request as he had received a letter from Paramaribo with reference to our proposal of December 28th. He will send us a translation of the letter but the gist of it, as he read it to me, is that they would like something cheaper than what we offered.

Apparently they do not question the fairness of our price for the quality offered, but it is more than they want to spend and they suggest an alternative on the basis of:

1) Cheaper paper

2) A reduction of the size to 130 x 75 mm. or less (5 1/8" x 2 15/16")

3) A more simple format

Apparently they are of the opinion that protection against counterfeiting is not of prime importance considering the low value of the certificates.

They appear to be anxious to deal with us but cannot overlook the lower cost at which they can get notes from Holland. I pointed out that the wearing qualities of the paper were of great importance for low denominations which circulate freely amongst the people. I emphasized the saving that would accrue over the course of time by the use of our quality of paper, in that it would reduce considerably the replacement cost of the notes. Also that security is important even for a certificate of this value, as losses might readily be incurred that would more than offset the apparent saving in the original cost. I mentioned that even stamps of low denomination have been known to have been counterfeited and that a majority of American countries recognize the importance of security for even their low value notes, as, for instance, the Mexican One Peso notes, which, on an exchange basis, are worth considerably less than the Suriname 1 Gulden certificates.

I mentioned that our quotation, which worked out to less than 1-1/2 cents per certificate, was a very small proportion of its value to assure to the Government the greatest protection against counterfeiting. I brought out that we had given very careful consideration to our quotation, that it was very favorable even in comparison with the temporary certificates previously furnished, as it was our desire to cooperate to the utmost with them in their having a suitable permanent issue.

Dr.Einaar is inclined toward our viewpoint but nevertheless feels that we should endeavor to meet their wishes rather than close the door completely. He suggested that we set forth our arguments in our reply.

Memorandum -2-

In answer to my question as to the officials' reaction to the design he said that it is apparently O.K., although they did not say,one way or the other, except that a more simple one would be acceptable.

As to quantity, he said we should quote on the same as before,namely 1,000,000 and 2,000,000. The letter he had said nothing about series.

In the course of the conversation Dr.Einaar indicated that there is a possibility he will be asked to assist in the Government of Suriname because of his experience abroad, which, he said, was 20 years in Europe and six years in this country.

JWB.
Asst.Manager Foreign Department

P.S. While speaking with Dr. Einaar I broached the subject of stamps,recalling to his mind the issue that we prepared some years ago,and expressing the hope that we might do some more.

NOTHING FOR FILING

Referring to your letter of March 17, 1952, No.2186, I herewith beg to advise you that the consideration of this matter delayed considerably because of several circumstances.

Meanwhile compelled by necessity to solve the pressing need, a restricted quantity of the existing certificates is being ordered.

Concerning the order of new certificates no decision has been made.

What makes the decision of this matter so difficult is the fact that the quotation of the American printed certificates is considerable higher than that of the Netherlands printed certificates. It is known that this is partly due to the quality of paper but in my opinion this does not justify such a great difference.

It has been proven that the American banknote is better than the Netherlands, but the difference is not that big that the duration of American paper should be 4 times as long as that of the Netherlands.

I would prefer the American paper in case the quotation should be reduced to reasonable proportions. This would perhaps happen if the size of the American certificate should be made smaller.

65 m.m. x 152
2½ x 6
2 21/32 x 5 1/8

The size of the certificates made in the Netherlands is 75 x 130 m.m. and that is large enough. They could perhaps be somewhat smaller. Furthermore the execution should be simplified considerably, as to the designing as well as to the processing.

I herewith request your intermediary in discussing a few things with the American Banknote Co., in order to see into the possibility arriving in this way at a more acceptable quotation. Should this be the case then a further offer of the American Banknote Col. would be taken into consideration.

FILING
MAY 1

Dear Sir:

Pursuant to the request of the Treasurer of Suriname and our conversations with Dr. Einaar relative thereto, we have given very careful consideration to an alternative less costly proposal than the one based upon the models submitted with our letter of December 28, 1951, on the basis of furnishing a note of smaller size and possibly of less elaborate design.

A reduction of the size to 6"x2-5/8" will permit of a lower quotation as a result of certain manufacturing economies. However such a size will not permit of using the same vignette (picture) on the face of the note as was shown in the model previously submitted. We have therefore selected another one of suitable size from our stock, but before proceeding with the formulation of an alternative proposal and new models, we would like to know whether this alternative vignette will be acceptable to the Suriname authorities. We have therefore mounted a proof of it on a rough pencil sketch in the revised size, which sketch also gives an idea of the revised arrangement which will be necessary for most economical production. This sketch is enclosed herewith, and we would thank you to forward it to Suriname for the Treasurer's consideration. Upon its return, if the vignette is satisfactory, we will be pleased to complete a formal model and present it with a new quotation which will reflect not only the saving that will result from the reduced size, but also that resulting from the substitution of a simplified underlying tint or the elimination thereof in line with the Treasurer's indication that a simpler format would be acceptable.

We would also like to know if it is necessary to divide the total quantity of notes into series of 50,000 notes each as heretofore, or if it will be in order to provide for a change of serie letters only once for each million notes. This would result in further operating economies which we will be pleased to pass along in our revised quotation.

If the text or signatures shown on our first model are in any way incorrect, we would appreciate being informed of the corrections to be made so that we can incorporate them into the new model we propose to prepare.

NOTHING FOR FILING

In reply to your letter dated May 19, 1952, No.3786, I herewith beg to inform you that there is no objection of paramount importance against the model submitted. Only the woman has little Surinam features and the vegetables, as appears to me, by no means are of Surinam origin.

Preferably another picture should be chosen. I personally would prefer a more simple ornamental model, without the picture of a person, a landscape or something like it.

Since the notes concerned are of small value ($0.50) the security to my opinion against counterfeiting should not be that important. The notes formerly printed by the Banknote Company, which of course were also very simple, satisfied very much.

Reason why I do prefer American notes is the quality of the paper. * The quotation should therefore not exceed that of the Netherlands though the difference in the quality of the paper. ??

It does not seem necessary to me for this reason that the American Banknote Company again should produce a final model. A simple outline is sufficient for me. Most of all, I am interested in the quotation.

* As Dr. Einsar read the letter to me in his office yesterday it was to the effect that the quotation should, however, not exceed that of the Netherlands by more than occasioned by the difference in the quality of the paper.

Government of Suriname
M.S.23986 - Silver Certificates

We are returning herewith the rough sketch submitted in connection with the above for approval of the vignette (V44498 - La Verduleva) and general arrangement.

Customer informs us that there is no objection of paramount importance against the sketch, but the woman has little Surinam features and the vegetables are not of Surinam origin, so that, preferably another picture should be chosen, although he personally would prefer a more simple model, without a vignette.

Our feeling is that a vignette should be included, if we can find a stock subject of suitable size and design. In view of the difficulty of finding a suitable one allusive to hydroelectric power or tropical agriculture, the two subjects originally mentioned, we believe there would be no objection to some other subject, provided it were a general one, and our thoughts turned to a ship. We have located V46542 and V46577 which, while not ideal, may be possibilities. Would they be suitable? Can you suggest others of a general nature?

We have proofs of the above two vignettes, but if you can suggest others will you please send us proofs thereof for forwarding to customer for selection. It will not be necessary to submit another sketch at this time.

Do you still have at hand the vignettes submitted for selection prior to the preparation of the first model? If we remember correctly, one or two of them included a hydroelectric plant taken from another engraving. Even though the composite vignettes be not suitable, could the hydroelectric plant be used by itself?

Also, we recently ran across V75375-No.2, which might be acceptable. Would it be suitable?

As we are anxious to find something that will please this customer we will appreciate your suggestions.

De Heer Administrateur van Financien
Paramaribo, Suriname

Sir:

We are writing to you directly upon the suggestion of Dr. J. F. E. Einaar, Consul, in view of his absence from this city at the present time.

Dr. Einaar has passed on to us the information in your letter of June 25th, and we have given very careful consideration thereto. We are pleased to learn that you liked, in general, the sketch we previously submitted, although you would prefer a different vignette (picture) or perhaps none at all.

We recommend the inclusion of a vignette because a skillfully engraved vignette considerably enhances security against counterfeiting, but yet it will not increase the cost as long as the vignette used is one of our "stock" subjects, already engraved. In substitution for the one shown on the sketch above-mentioned, we are enclosing herewith proofs of three "stock" vignettes of a very general nature which would be suitable as to size for the Silver Certificates in question, viz:

No.1 - V-75375, Allegorical of Electric Light and Power.
No.2 - V-46542, A Sailing Ship.
No.3 - V-46577, Allegorical of Shipping.

and we are hopeful that you will find one of them satisfactory. If not, we could prepare a design without a vignette, but, as mentioned above, we recommend that one be included.

Please return the three proofs with your advice.

As mentioned in our letter of May 15, 1952 to the Consul General of the Netherlands in this city, we propose a note 6x2-5/8 inches as being the most practicable size. Furthermore, pursuant to your request for a more simplified design than the one we submitted with our proposal of December 28, 1951, we propose to eliminate from the face of the note the supplementary underlying tint referred to in that proposal, but will maintain the intaglio steel plate printing on both the face and back. Also, to facilitate processing, we propose, instead of a separately placed series letter, to show a prefix letter before the numbers, which letter will change with each 1,000,000 notes, that is, the first 1,000,000 notes will be numbered A000001 to A1000000, the next 1,000,000 notes B000001 to B1000000, etc., as is customary.

File

FILING
AUG 15 1952

With these exceptions and based upon the general arrangement of the sketch submitted with our letter of May 15, 1952, but otherwise in accordance with our proposal of December 28, 1951, a copy of which we believe was sent you by the Consulate General of the Netherlands, our prices F.O.B. New York for the respective quantities of a single denomination ordered at one time are:

1,000,000 Notes, at U.S.$10.50 per thousand - U.S.$10,500.00
2,000,000 Notes, at U.S.$ 9.00 per thousand - U.S.$18,000.00
3,000,000 Notes, at U.S.$ 8.25 per thousand - U.S.$24,750.00

These prices, as a result of the changes of format above-mentioned, are, as you will observe, considerably lower than our quotation of December 28, 1951, without any compromise in quality of paper or security inherent in top quality intaglio steel plate printing. They are also lower than our last quotation on the temporary scrip certificates we theretofore furnished to you, and are extremely reasonable for the quality of product and service we offer.

We have examined some notes of your current issue, prepared in the Netherlands, and have found that the paper is not an all rag stock and that it is greatly inferior to ours in wearing qualities. The notes are also of photo-mechanical origin, surface printed, offering no protection against fraudulent re-production.

We observe that you consider it unnecessary for us to prepare a final model, but upon acceptance of our proposal we would prepare one in any event for the guidance of our engravers, and upon its completion we would be pleased to forward it to you for your approval before proceeding further. In this connection we would appreciate having your further instructions relative to the vignette and the exact text, date, signatures, etc. to be included.

When returning the proofs enclosed herewith will you also please return the face and back models which we submitted with our proposal of December 28, 1951.

We assure you that we are anxious to cooperate with you in every way possible, and we look forward to receiving your further communications.

Very truly yours,

De Heer Administrateur van Financien
Paramaribo, Suriname

Gentlemen:

Being without a reply to our letter of August 12th, which we trust reached you in order, we wonder if there is some further information you desire from us. If so, we shall be pleased to receive your inquiries.

In view of the very favorable prices we quoted in that letter, we are hopeful that we may have the pleasure of serving you in the preparation of your notes.

Very truly yours,

AMERICAN BANK NOTE COMPANY

Asst. Manager Foreign Department

Paramaribo, October 24, 1952.

To the Consul General of the Netherlands
at New York 20, N.Y.
10 Rockefeller Plaza.

NOTHING FOR FILING

Referring to correspondence concerning the order for the notes from the American Bank Note Company which your letter of May 19, 1952, No.3786, referred to and that from the American Bank Note Company of August 12, 1952, I have the honor to inform you of the following:

The quotation which the Banknote Company presents is still twice as high as the quotation fixed for Netherlands printed notas, although the quality of the American notes is far more superior.

Since the local government, however, decided to issue metal guilders in the near future so that the notes should be in circulation only for a short while, it has no sense as to proceed with the printing of notes which should meet the requirements of high quality and thus having a longer duration. For that reason the local government decided not to proceed in ordering notes from the American Banknote Company. I regret I was unable to advise you earlier about this decision.

I herewith beg to inform the American Banknote Company that I am verymuch obliged for the many troubles it went through and to extend my appreciation for the service rendered for sending its quotation. I am returning the models concerned.

The Administrator of Finances

Dear Sirs,

Referring to the telephone conversation Dr. Einaar, Consul at this Consulate General, had with Mr. Becket of your Foreign Department concerning the printing of the Surinam notes, I herewith beg to enclose for your information a #translation of the letter received from the Administrator of Finance of the said territory, as was requested by the said Mr. Becket.

As you will notice in the abovementioned translation the said official requested me to express his appreciation for the troubles you went through in sending your quotation and models. The models are enclosed. *

Yours very truly,

(Baron Jan A. de Vos)
Consul General of the Netherlands.

Sir:

The Consul General of the Netherlands in this city has informed us of your decision to issue metal coins instead of the Silver Certificates on which we quoted. He also returned to us the models and proofs we had submitted in connection therewith.

We regret that we shall not have the pleasure of serving you at this time, but we hope that we may do so in the future. Our facilities are always at your service.

As to our price being higher than that submitted by others, it is only because of the greater values inherent in the product and service we offer. Naturally these values are more costly in the first instance, but because of the longer life of our notes, the security embodied therein and the safeguards with which the notes are surrounded during production, they are more economical in the long run by reason of the less frequent need of replacement and the greater freedom from loss by fraudulent reproduction or over-issue.

We renew our assurances that we shall welcome your inquiries whenever the occasion arises that we may be of service to you.

Very truly yours,

AMERICAN BANK NOTE COMPANY
